ACCESSORIES

FIND YOUR METHOD FOR RELAXATION

Imagine your house, decorated exactly the way you want it. In line with your lifestyle, your tastes, fully reflecting your personality and who you really are. Take care of its character and style, but also about your everyday life. Live and rest the way you like, thanks to the upholstered furniture that fits you.

We have created a collection in which you will surely find something just right for you. Sofas, armchairs, poufs, corner sofas and lounge sets in a variety of stylistics, sometimes they impress with their finesse shapes, and sometimes they charm with their simplicity. The new models can be adapted to your requirements as they offer many additional features. We hope that among dozens of inspirations you will find your way to relax and enjoy it every day.

CHOOSE THE IDEAL FABRIC

What should the ideal fabric be? Expressive and full of colour, or maybe subtle and subdued? Do you want it to look great or maybe you want it to be more practical? How about both? Choose the kind of upholstery that will make it your favourite piece of furniture in the whole house. Add a unique character to the interior, thanks to the fabrics we have prepared for you.

1 **FABRICS WITH PRINTS**

In our offer you can find fabrics with original prints. Botanical motifs or geometric patterns that will look great in the interior and will give it a unique character.

2 **VELOURS**

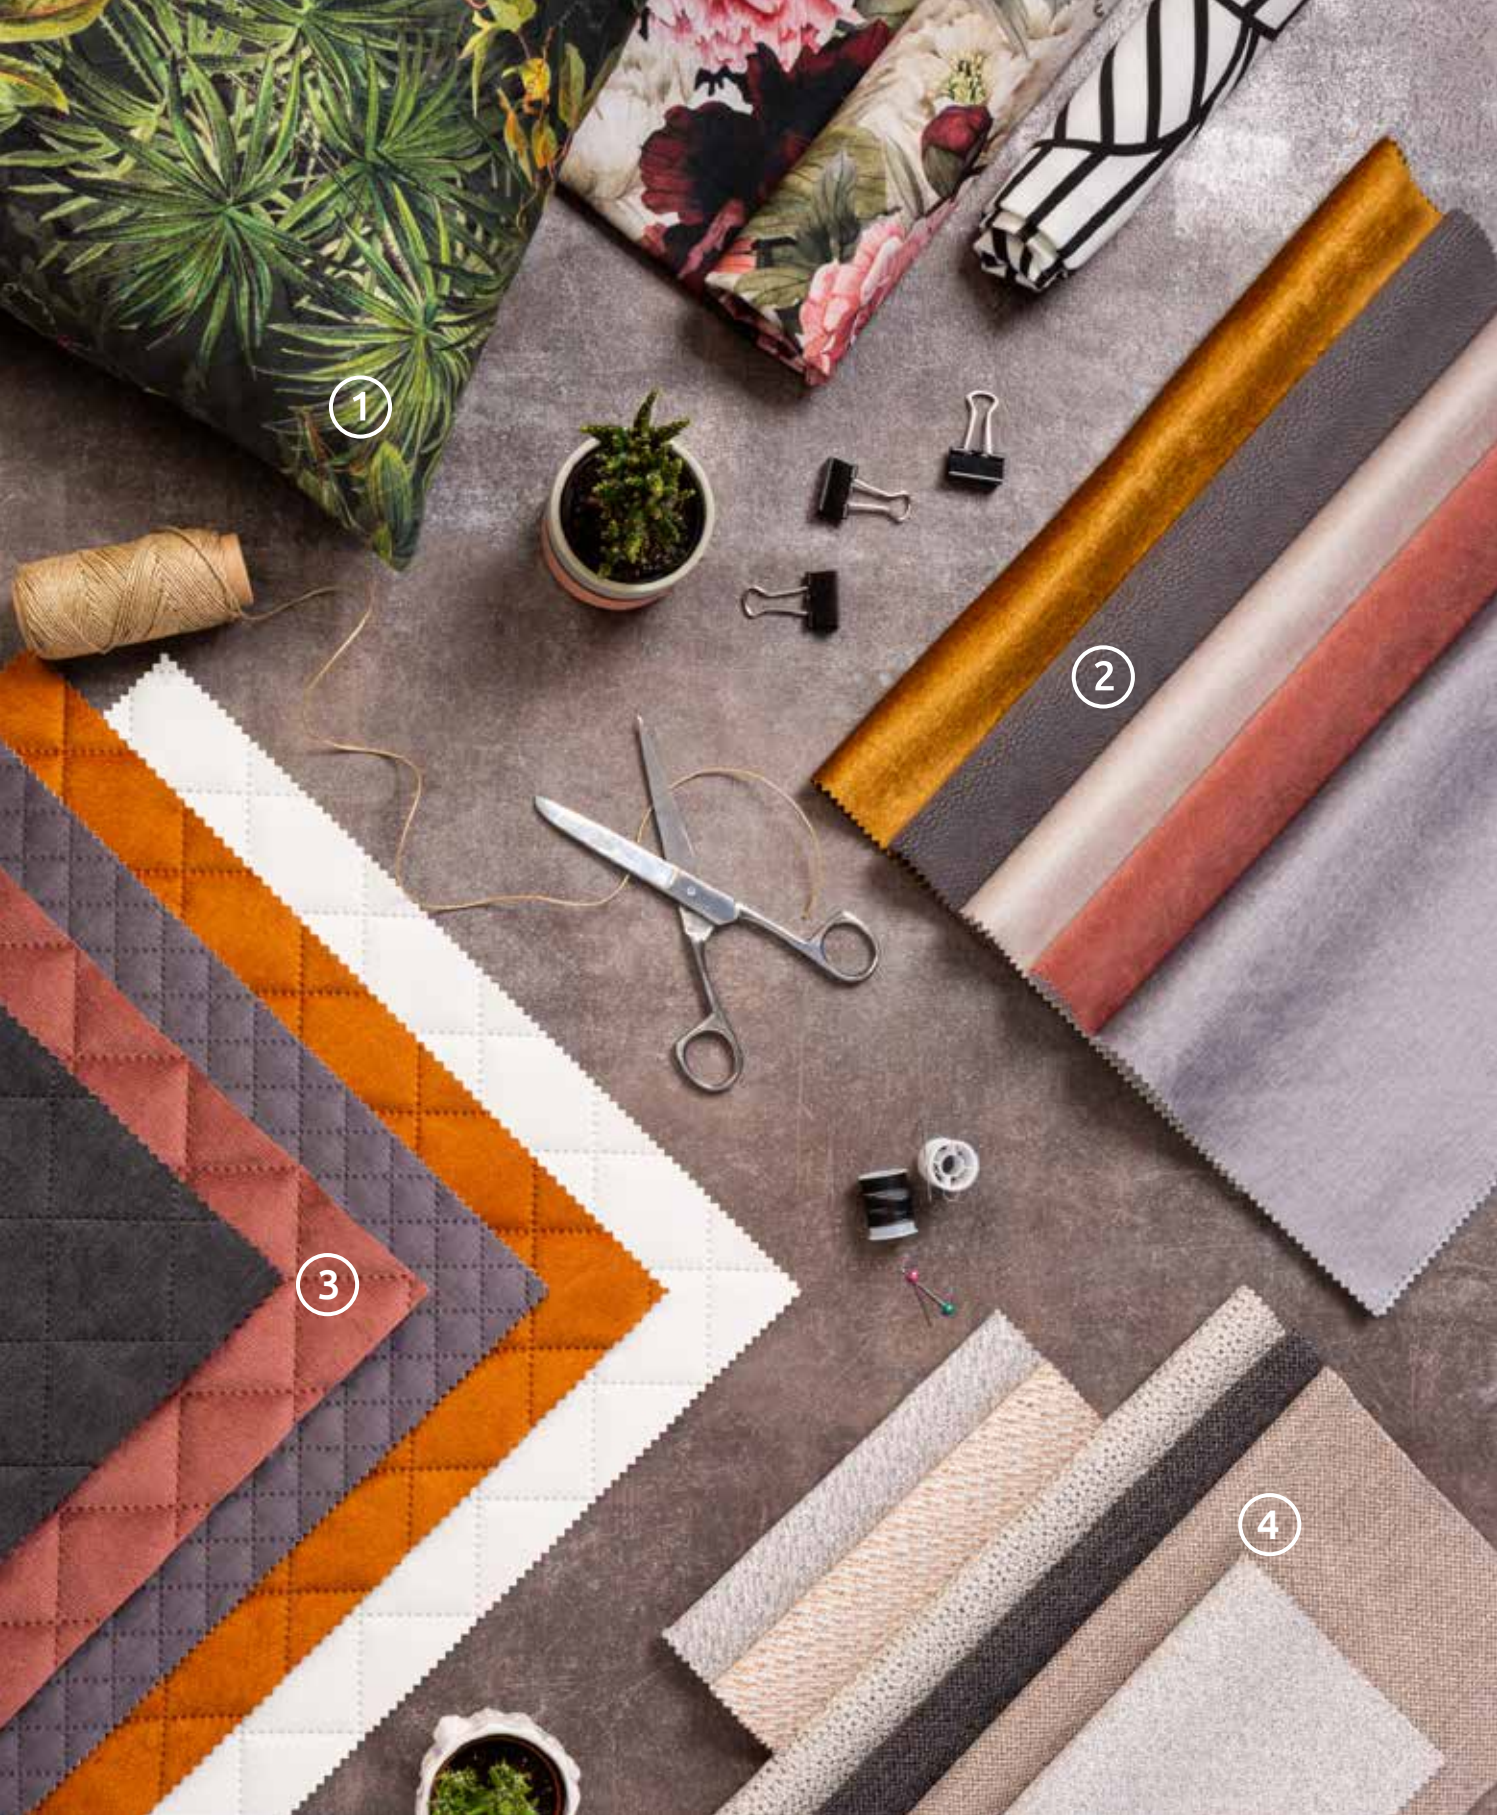

They are characterized by being very soft and very pleasant to the touch. In the velour groups you will also find various textures and delicate patterns. These fabrics can be matt or glossy.

3 **QUILTED FABRICS**

Quilted fabrics catch the eye with their unique appearance. They will be perfect in the form of decorative elements, such as backrest cushions or decorative pillows. Available in many colours, they will make creating fashionable, unconventional interiors possible.

4 **EMBOSSSED FABRICS**

Fabrics with a distinctive appearance, whose distinguishing feature is primarily the interesting weave of fibers. The sufficiently strong structure of the embossed fabrics makes them an ideal match for furniture.

SPECIALTY PILLOWS

Specialty pillows are filled with **thermoelastic (memory) foam**. The foam is made of millions of tiny cells that sense weight changes and human body temperature. The filling increases its flexibility as the temperature increases. This ensures a perfect fit to the cervical section of the spine in its natural position.
